I can't tell you how important KLOVE is to me, especially when I commute to and from work. The spiritual message they offer keeps me "heavenly minded" as I work my way through traffic. Others have told me they are uplifted by this station as well. It would be a terrible loss to everyone if the action to reduce their ability to provide this daily broadcast offering hope and salvation was taken. We don't need more "noise", we continue to need the clear message KLOVE broadcasts. Please don't take this action.
